

Petitioning The Hon. Gladys Berejiklian MP Alter School Bus Route 560 on Victoria Road, to provide **A SAFE BUS STOP FOR OUR CHILDREN**

The safety concerns

- the shared public bus shelter is not big enough for the crowd of school children;
- children cannot pass each other, or the general public without encroaching the busy road;
- there is no barrier to protect them from fast moving Victoria Rd peak-hour traffic.;
- due to the hazard lane behind the bus stop which facilitates bike traffic and the barrier behind and between the two shelters, parents cannot supervise their children without being under the shelter, adding to the crowd;
- the nature of children is to be playful, pushing each other along the edge of the road;
- children as young as 5 years old need to wait for up to 25 mins for the bus.
