

COMMUNITYOSH NEWSLETTER

Newington Wyvern House Preparatory School

At COSH we're looking forward to warmer weather, with spring just around the corner! Our term 3 holidays are coming up and we have provided some details about two of our planned days will be provided in this newsletter. The program has been planned based on the children's interests and family feedback. The boys (and girls) had some great ideas and we will continue to build them into our VAC care offerings. The bike and scooter days are so popular and give the children an opportunity to show off their skills. Bookings are now open for our VAC care online.

Approaching the second half of the term, the boys are noticeably becoming a bit more tired, so we've included more wellbeing activities into our everyday program. The wellbeing activities we've been including have been; arts and craft, mindfulness colouring in, dramatic play/role play, cooking and listening to music. Our clubs have also been instrumental in helping the boys relax and 'unwind', we've included some information about Japanese club in this newsletter!

We deeply care about the boys' wellbeing and like to think of COSH as space the boys can freely explore their interests and passions.

Thank you for all your continued support.
Danielle and the team at Newington

Notice Board:

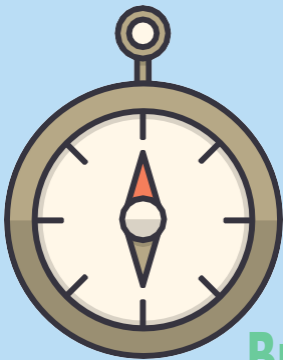

- Our VAC program has been emailed out to families! Bookings will be available shortly.
- As always, if you have any questions or queries please email Newington@commosh.edu.au or Kim.D@commosh.edu.au
- We are practicing strict hygienic measures during this time and are complying with social distancing.
- As parents/guardians aren't allowed inside the school, we ask you to ring 0418 907 634 when you arrive to collect your son. An educator will bring him down to you.

About Japanese Club...

About our teacher: Yoshi
Yoshi has interests in Crafts and in fact specialised in Metal and Paper. During our Winter Vacation program, Yoshi ran a metal workshop for the boys where the children were able to create masterpieces out of different types of metal. Yoshi loves sharing her culture with the boys and is eager to teach the boys more about the Japanese language and culture.

What do childhood theorists have to say?
Rudolph Steiner, an Austrian philosopher believed that providing real life tasks for children gives them a sense of connection and belonging. Steiner placed a strong emphasis on real rather than virtual experiences to support the child in forming a healthy relationship to the world.

Our Japanese Club is about to finish up for Term 3, however we're about to start planning for Japanese Club in Term 4! We'd love to hear what families and children would like to include in next Term's program!

Below is what our program looked like for Term 3....
